Section E: Comprehension Open-Ended (10 marks)

Read the following passage carefully and answer the questions that follow. Your answers must be based on the passage read.

Mei Ling hurried to Uncle Ahmad's house that evening. She could not wait to try the delicious nasi lemak and curry chicken that he had specially prepared for the occasion. He was celebrating his sixtieth birthday and everyone in the village was invited for this biggest party of the year.

That party was special as Uncle Ahmad had promised to give everyone a surprise. He said he had bought a magic box that could show pictures of people and that the people could talk. No one in the village had ever heard of anything like that.

Even as Mei Ling was walking towards Uncle Ahmad's house, the smell of nasi lemak and curry chicken filled the air. The children knew that they would be having a great feast that night. When all the guests had arrived, Uncle Ahmad presented his magic box. It sat on four spindly legs at the front of his big room. On the front of the black box was a glass screen and four little buttons.

Everyone pushed forward to get a closer look at it. Mei Ling and her friends peered into the screen but they could not see anything. They tapped the glass to make sure it was not a trick.

"Don't touch the magic box!" said Uncle Ahmad. He stepped in front of it and signalled to them to move back. He did not want anything to happen to it. He told them to sit down on the mats. Then he pushed one of the buttons and the glass screen lit up.

Suddenly, the face of a man appeared on the screen and he started speaking. What kind of man was this? He was so small! The guests' eyes lit up. Everyone broke into chatter.

The children looked behind the box but there was no one there. Could someone be inside the box, they wondered? They could not work it out.

Uncle Ahmad waved his hands again and everyone became quiet. People sat eating dinner, staring at the characters on the screen.

It was the very first time that the villagers had watched television.
