Excerpt from our newsletter: Pet Wellness

This week in our newsletter, we are featuring esteemed veterinarian and dog lover, Dr Eris and Furry Friends Animal Shelter. Both have helped to save hundreds of animals since they began their partnership in 2011.

Dr Eris

Born in Singapore, Dr Eris moved to Tasmania with her family when she was seven. It was there on her uncle's farm where she decided that she wanted to become a veterinarian. She graduated from The University of Sydney in 2006 and opened her first clinic in 2010.

After seeing the plight of shelter dogs in Singapore, Dr Eris decided to move back here. In 2015, she opened the Sunny Animal Clinic and began treating all animals. She also volunteers her services at Furry Friends Animal Shelter every week. Dr Eris specialises in the treatment of dogs but is also trained to treat other animals including more exotic pets such as snakes and iguanas.

Dr Eris often facilitates pet care workshops and gives talks to raise awareness on the importance of responsible pet ownership in primary and secondary schools. She also works as a veterinary consultant on television production sets.

Furry Friends Animal Shelter

Opened in 2005 and located in SengWang, Furry Friends Animal Shelter is the first animal shelter that accepts exotic pets such as iguanas and snakes that have been seized from irresponsible owners. They have helped over a thousand dogs to find their 'forever homes' with warm and loving families.

As they are a non-profit organisation, all of their funds go to covering operational costs and taking care of abandoned animal friends. Therefore, they rely heavily on public donations and fund-raising events. In 2017, Furry Friends Animal Shelter held the first 'Pet Adoption Drive and Carnival'. The event was a huge success! This year, Furry Friends Animal Shelter has paired up with Sunny Animal Clinic to run a series of school workshops that encourage responsible pet ownership and pet adoption.
