MATHEMATICS

PAPER 1
BOOKLET A

Total Time for Booklets A and B: 1 hour

INSTRUCTIONS TO CANDIDATES

Do not turn over this page until you are told to do so.
Follow all instructions carefully.
Answer all questions.
Shade your answers in the Optical Answer Sheet (OAS) provided.
The use of calculators is **NOT** allowed.

Name: _____ ( )

Class: Primary 6._____

Date: 18 May 2021

/20

This booklet consists of 7 printed pages including this page.

Downloaded from SingaKids.com

Downloaded from SingaKids.com

Questions **1** to **10** carry 1 mark each. Questions **11** to **15** carry 2 marks each. For each question, four options are given. One of them is the correct answer. Make your choice (1, 2, 3 or 4). Shade the correct oval (1, 2, 3 or 4) on the Optical Answer Sheet. (20 marks)

---

1 ☆ × 20 = 500.

What is the value of ☆?

(1) 250

(2) 100

(3) 30

(4) 25

2 19.09 kg = ____ kg ____ g

(1) 1 kg 909 g

(2) 19 kg 9 g

(3) 19 kg 90 g

(4) 190 kg 9 g

3 Round off 2.834 to 2 decimal places.

(1) 2.80

(2) 2.83

(3) 2.84

(4) 2.90

Downloaded from SingaKids.com

4 Find the value of $\frac{4}{7} - \frac{1}{3}$.

(1) $\frac{3}{4}$

(2) $\frac{3}{21}$

(3) $\frac{5}{21}$

(4) $\frac{5}{4}$

5 Arrange the following numbers from the smallest to the largest.

8	8.7	8.07

(1) 8 8.07 8.7

(2) 8.7 8 8.07

(3) 8.7 8.07 8

(4) 8.07 8.7 8

6 Which of the following would be the most likely mass of a laptop?

(1) 20 g

(2) 2 kg

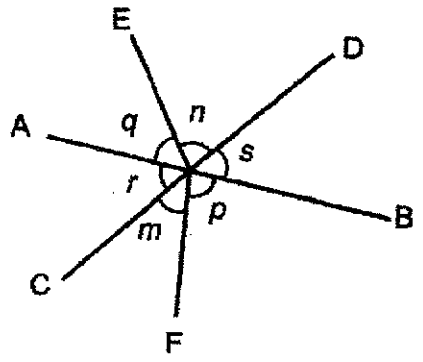

(3) 20 kg

(4) 200 g

(Go on to the next page)

Downloaded from SingaKids.com

7 In the diagram, AB and CD are straight lines. Which of the following statement is true?

(1) $\angle m = \angle n$

(2) $\angle p = \angle q$

(3) $\angle s = \angle p$

(4) $\angle s = \angle r$

8 Esther brought $\frac{7}{9}$ of a pizza to school. She ate $\frac{3}{5}$ of it. How much of the pizza had she eaten?

(1) $\frac{5}{7}$

(2) $\frac{7}{15}$

(3) $\frac{2}{9}$

(4) $\frac{8}{45}$

(Go on to the next page)

Downloaded from SingaKids.com

9 Siti made some lemonade drink by mixing the lemonade syrup with water in the ratio 1 : 3. She made 12 litres of the lemonade drink. How much water did she use?

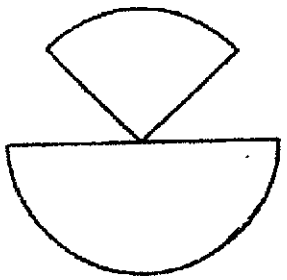

(1) 9 ℓ

(2) 8 ℓ

(3) 3 ℓ

(4) 4 ℓ

10 The figure is made up of a semicircle and a quarter circle of radius 7 cm. Find the perimeter of the figure. (Take $\pi = \frac{22}{7}$)

(1) 33 cm

(2) 47 cm

(3) 61 cm

(4) 115.5 cm

(Go on to the next page)

Downloaded from SingaKids.com

11 The cost of a shirt was twice the cost of a pair of pants. The pair of pants cost $\$n$. Mr Samad bought 3 pairs of pants and a shirt. He gave the cashier \$100. Which of the following expressions shows the amount of change that Mr Samad received?

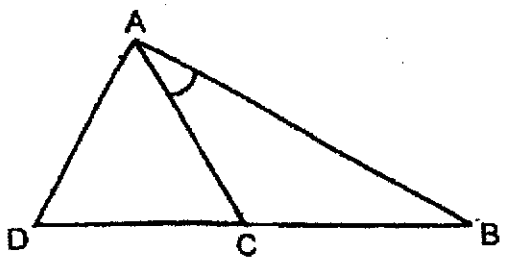

(1) $\$(100 - 3n)$

(2) $\$(100 - 4n)$

(3) $\$(100 - 5n)$

(4) $\$(100 - 7n)$

12 In the diagram below, ACD is an equilateral triangle. DCB is a straight line and BC = AC. Find ∠CAB.

(1) 30°

(2) 45°

(3) 60°

(4) 120°

(Go on to the next page)

Downloaded from SingaKids.com

13 During a sale, the price of a blouse was sold at $40. This was 20% less than the usual selling price. What was the price of the blouse before the sale?

(1) $8

(2) $48

(3) $50

(4) $200

14 There were twice as many girls as boys in a Computer Club. After 15 girls left the club and 10 boys joined the club, there was an equal number of boys and girls in the club. How many girls and boys were there in the Computer Club at first?

(1) 15

(2) 25

(3) 50

(4) 75

15 Alice and Wei Ling shared the cost of a gift. Alice paid $\frac{2}{5}$ of the cost of the gift and an additional $36. Wei Ling paid $54. How much did the gift cost?

(1) $225

(2) $150

(3) $126

(4) $90

PAPER 1
BOOKLET B

Total Time for Booklets A and B: 1 hour

INSTRUCTIONS TO CANDIDATES

Do not turn over this page until you are told to do so.
Follow all instructions carefully.
Answer all questions.
Write your answers in this booklet.
The use of calculators is **NOT** allowed.

Name: _____ ( )

Class: Primary 6._____

Date: 18 May 2021

Paper 1 Booklet A	**/ 20**
Paper 1 Booklet B	**/ 25**
Paper 2	**/ 55**
TOTAL	**/ 100**

Parent's Signature: _____

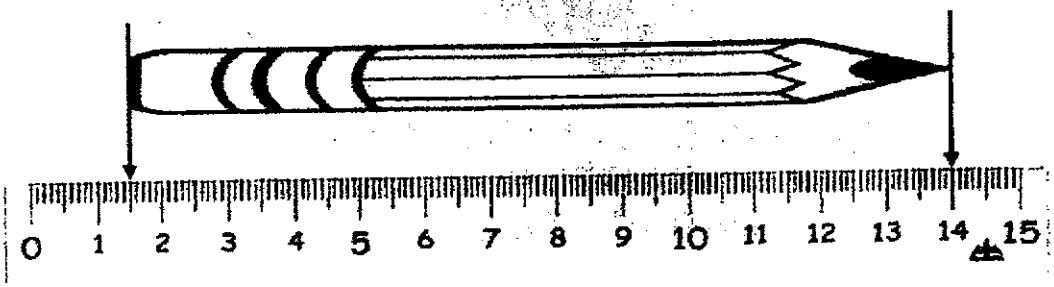

This booklet consists of 8 printed pages including this page.

Downloaded from SingaKids.com

Questions **16** to **20** carry 1 mark each. Write your answers in the spaces provided. For questions which require units, give your answers in the units stated. (5 marks)

Do not write in this space

16 What is the length of the pencil?

Ans: _____ cm

17 Find the value of $\frac{7}{9} \div 3$.

Ans: _____

18 Express $\frac{3}{5}$ % as a decimal.

Ans: _____

(Go on to the next page)

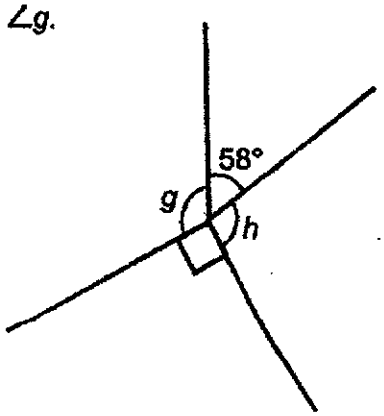

Downloaded from SingaKids.com

19 Mary baked m number of muffins in the morning. In the afternoon, she baked 58 muffins. She had 105 muffins in the end. How many muffins did she bake in the morning?

Do not write in this space

Ans: _____

20 In the diagram below, $\angle g = \angle h$. Find $\angle g$.

Ans: _____ °

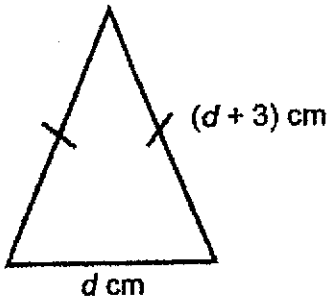

(Go on to the next page)

Downloaded from SingaKids.com

Questions **21** to **30** carry 2 marks each. Show your working clearly and write your answers in the spaces provided. For questions which require units, give your answers in the units stated. (20 marks)

Do not write in this space

21 The perimeter of the isosceles triangle shown below is 36 cm. What is the value of d ?

Ans: _____

22 The ratio of Peter's money to John's money is 3 : 5. After Peter spent \$24, the ratio of Peter's money to John's money is 3 : 7. How much money did Peter have at first?

Ans: \$ _____

(Go on to the next page)

Downloaded from SingaKids.com

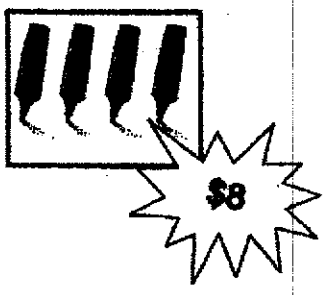

23 A repeated pattern is formed using the digits 1 and 3.
The first 15 digits are shown below. What is the sum of the first 24 digits?

1 3 1 3 1 1 3 1 3 1 1 3 1 3 1 . . .
1st 2nd 3rd 15th

Do not write in this space

Ans: _____

24 Highlighters are sold in packets of 4. Each packet is sold at $8.
Tom has $30. What is the maximum number of highlighters that he can buy?

Ans: _____

(Go on to the next page)

Downloaded from SingaKids.com

25 The ratio of the amount of money Siew Li had to the amount of money Rachel had was 3 : 4. Each of them bought a bag which cost $45. The ratio of the amount of money Siew Li had to the amount of money Rachel had in the end was 3 : 7. How much money did Rachel have at first?

Do not write in this space

Ans: $_____

26 Ann saves 40% of her pocket money every month. When her pocket money increased by 20%, her savings also increased by $12. What was Ann's pocket money before the increase?

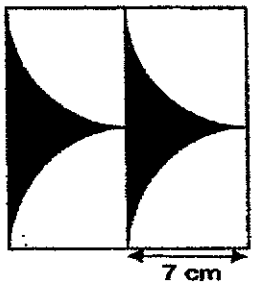

Ans: $_____

(Go on to the next page)

Downloaded from SingaKids.com

27 The diagram below shows a pattern that is made up of identical squares and quadrants. Find the total shaded area. (Take $\pi = \frac{22}{7}$)

Do not write in this space

Ans: _____ cm^2

28 Mrs Seeto had some oranges, apples and mangoes in her fruit basket. 40% of the fruits in the basket were oranges. The number of apples was $\frac{2}{3}$ the number of mangoes What percentage of her fruits was mangoes?

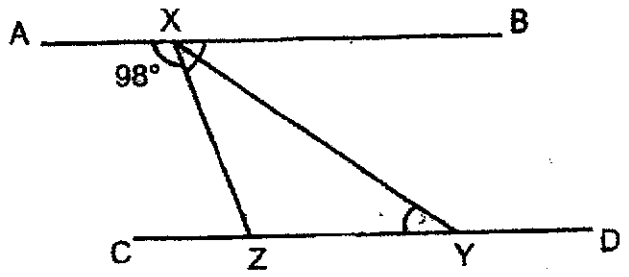

Ans: _____ %

29 In the diagram below, AB is parallel to CD and XZ = YZ. Find ∠XYZ.

Ans: _____ °

30 Mrs Tan bought a 100 kg sack of flour at $150. She repacked the flour into smaller packets. The mass of each smaller packet was $\frac{3}{5}$ kg. She sold all the smaller packets of flour at $2 each.

Each of the statements below is either true, false or not possible to tell from the information given. For each statement, put a tick (✓) to indicate your answers.

Statement	True	False	Not possible to tell
After repacking, there were more than 100 smaller packets of flour.			
$\frac{2}{3}$ kg of flour was left.			
Mrs Tan collected more money than what she spent on the sack of flour.

Questions 1 to 5 carry 2 marks each. Show your working clearly and write your answers in the spaces provided. For questions which require units, give your answers in the units stated. (10 marks)

Do not write in this space

1 The total cost of a book and pen is \$26. The cost of the pen is $\frac{1}{4}$ the cost of the book. What is the cost of the book?

Ans: \$ _____

2 Water drips from a tap at a rate of 6 mℓ per second into an empty bucket. How much water is collected in 1 hour? Give your answer in litres.

Ans: _____ ℓ

(Go on to the next page)

Downloaded from SingaKids.com

3 Mr Ahmad made soya bean drink using the recipe below.

Do not write in this space

Soya Bean Recipe

Quantity	Ingredients
250 g	soya bean
40 g	sugar
1.2 litres	water
2	pandan leaf

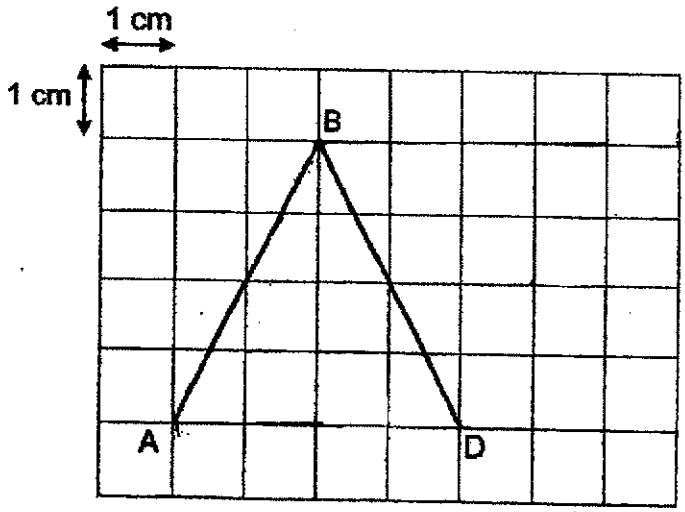

He used 1 kg of soya beans. How many grams of sugar did he use?

Ans: _____ g

4 In the grid below, the lines AB and BD have been drawn for you.

(a) Draw a parallelogram ABCD in the grid below, such that AB = DC. Label your parallelogram clearly. [1]

(b) What is the area of the parallelogram, ABCD?

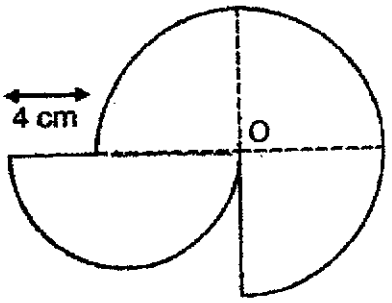

Ans: (b) _____ cm^2

(Go on to the next page)

Downloaded from SingaKids.com

5 The figure below shows a semicircle and 3 quarter circles. O is the centre of the 3 quarter circles. The diameter of the semicircle is 14 cm. Find the area of the figure. Use the calculator value of π and give your answer correct to 1 decimal place.

Do not write in this space

Ans: _____ cm^2

(Go on to the next page)

Downloaded from SingaKids.com

For questions 6 to 17, show your working clearly and write your answers in the space provided. The number of marks available is shown in brackets [ ] at the end of each question or part-question. (45 marks)

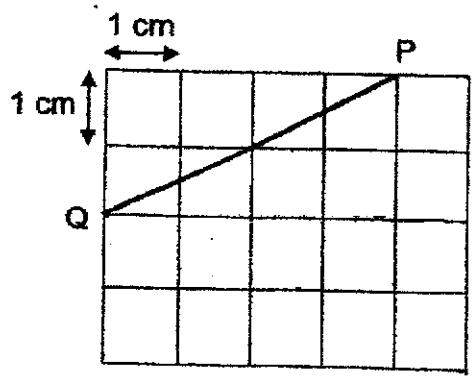

Do not write in this space

6 The table below shows Amil's Mathematics marks for 2 tests. In which test did Amil do better in and by how many percent?

Test	Marks Obtained	Total marks for the test
Test 1	45	60
Test 2	63	90

Ans: Test _____, _____ [3]

7 In the grid below, draw triangle PQR, such that the area of triangle PQR is 9 cm^2. [3]

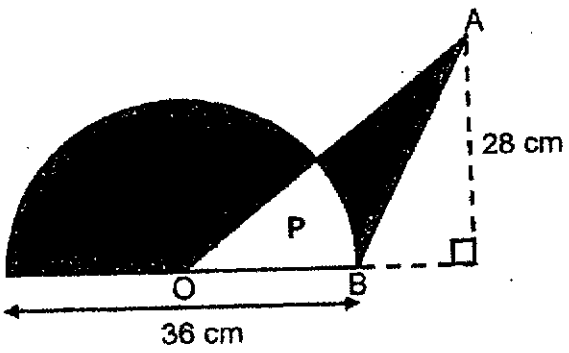

(Go on to the next page)

Downloaded from SingaKids.com

Do not write in this space

8 The diagram below is made up of a semicircle and a triangle, OAB. The unshaded area, P, is 100 cm^2. Find the area of the shaded parts. (Take $\pi = 3.14$)

Ans: _____ [3]

9 The average of 6 consecutive numbers is 152.5. What is 10 less than the smallest number?

Ans: _____ [3]

(Go on to the next page)

Downloaded from SingaKids.com

10 During a sale, a shop offered a 20% discount on all its mobile phones. Ming chose a phone which cost $160 less than its usual price due to the discount given. He had to pay an additional 7% GST on the discounted price. How much did Ming pay for the mobile phone in the end?

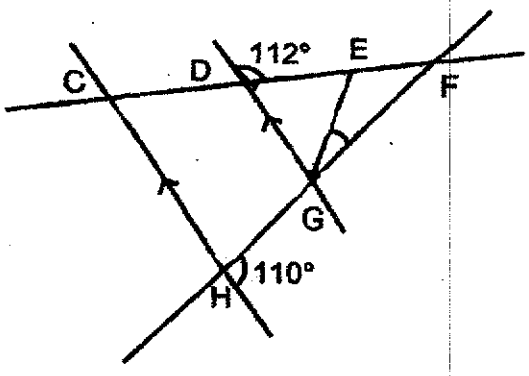

Do not writ in this spac

Ans: _____ [3]

11 In the diagram below, CDE and FGH are straight lines. DG = GE.

(a) Find ∠ DCH.

(b) Find ∠ EGF

Ans: (a) _____ [2]

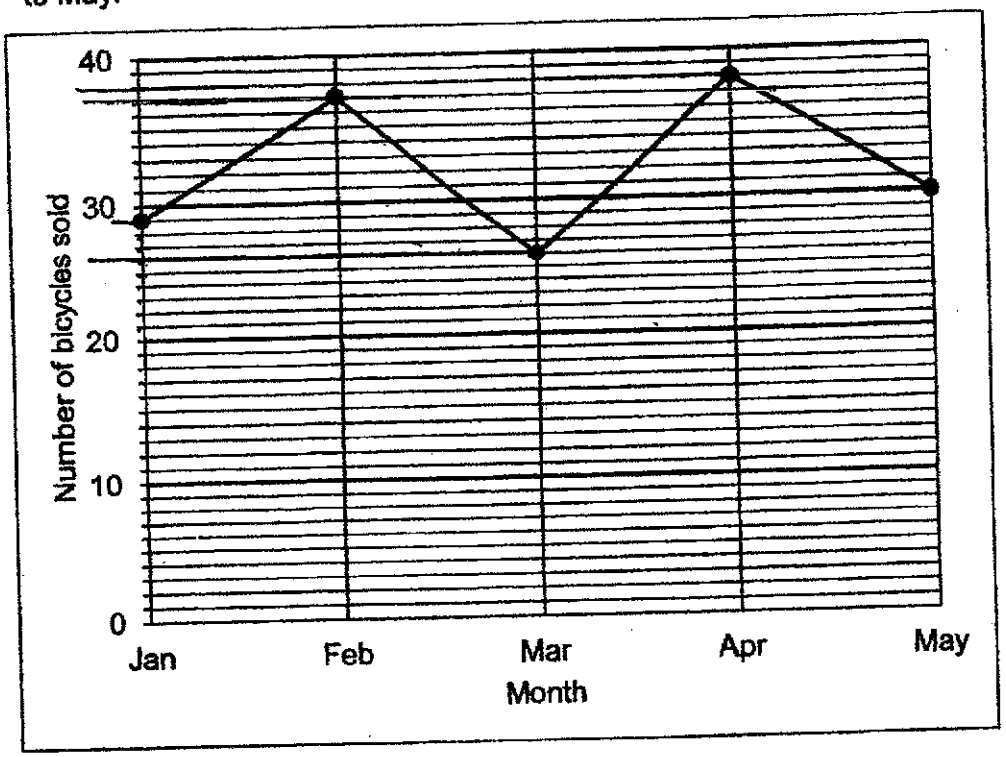

(b) _____ [2]

(Go on to the next page)

Downloaded from SingaKids.com

12 The line graph below shows the number of bicycles sold from January to May.

Do not write in this spac

(a) What was the average number of bicycles sold per month?

(b) The average number of bicycles sold from January to June was 34.5. What was the number of bicycles sold in June?

Ans: (a)_____[2]

(b)_____[2]

Downloaded from SingaKids.com

13 Arjun folded a circular piece of paper into half as shown in Figure 1. The resulting shape in Figure 2 has a perimeter of 36 cm. He then folded the figure further into halves twice, until he obtained Figure 4.

Do not write in this space

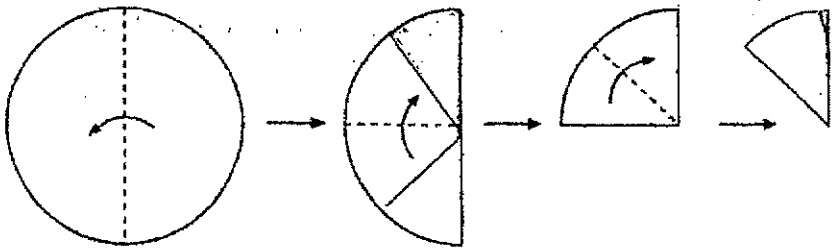

Figure 1 Figure 2 Figure 3 Figure 4

Figure 4 has a perimeter of 19.5 cm. Find the circumference of the original circular sheet of paper as seen in Figure 1. (Take $\pi = \frac{22}{7}$).

Ans: _____ [4]

Downloaded from SingaKids.com

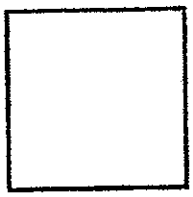

14 The perimeter of a square is p cm. The side of the square is the same as the breadth of the rectangle, but it is 3 cm shorter than the length of the rectangle.

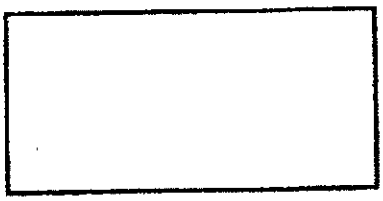

Do not write in this space

(a) What is the length of the square?

(b) What is the perimeter of the rectangle? (Express your answer in terms of p)

(c) If $p = 12$, what is the area of the rectangle?

Ans: (a) _____ [1]

(b) _____ [2]

(c) _____ [2]

Downloaded from SingaKids.com

15 There were $\frac{2}{5}$ as many boys as girls in a school hall at first. After 30 girls and 20 boys left the school hall, 25% of the pupils remaining in the school hall were boys. What was the total number of boys and girls in the school hall at first?

Do not writ
in this spac

Ans: _____ [4]

Downloaded from SingaKids.com

16 Haslima had a sum of money. She spent \$35 on a belt and $\frac{4}{7}$ of the remainder on a pair of shoes. She was left with $\frac{1}{3}$ of the original sum of the money. How much money did Haslima have at first?

Do not write in this space

Ans: _____ [4]

Downloaded from SingaKids.com

17 John drew a cube of sides 15 cm. He then drew another cuboid by increasing the length and height of the cube by 20%. What was the percentage increase in the volume of the new cuboid that he had drawn?

Do not write in this space

Ans: _____ [5]
