Read the following passage and answer the questions that follow.

The twins, Shaun and Hayden, were looking forward to the school sports carnival. They would be competing in a race. Shaun, the fastest runner in the school, was confident that he would win the race without any hard work. Hayden, on the other hand, trained very hard as he was not as fast as Shaun.

"You should be training hard in order to win. Your laziness will cost you greatly!" the twins' mother warned Shaun.

"No, Mum. You're wrong. I'm sure I'll win," Shaun replied smugly.

The big day soon arrived. The teacher blew the whistle and the race began. Soon, the twins left all the other runners far behind. Shaun was slightly ahead of Hayden at first. As they approached the final lap, Hayden sped up and crossed the finishing line just before Shaun.

Shaun was shocked. He regretted not heeding his mother's advice.
