It was the start of the lockdown. Milly was feeling bored and looked out of the window. She saw the playground and it was empty. "I can't wait to play there again," she thought sadly.

Just then, she saw something in the air. "What is that?" she wondered. As **the object** came closer, she realised that it was a mask. Milly's eyes never left the mask. She watched as it fell into the nearby pond. On closer look, she saw many other masks there. "Mum!" Milly called. She shared what she had seen with Mother.

"People are wearing masks to prevent the spread of Coronavirus. When they throw their masks away, it is important to put them in a bin. By littering, animals may treat the masks as food," Mother explained.

Milly was worried. "Should I stop wearing masks then?" she asked. "That's not the solution," said Mother. "We should continue to wear masks. Cloth masks are best for the environment as they can be reused after washing."

Milly wanted to do her part for the environment. "I've got an idea!" Milly exclaimed. Milly and her mother looked for old clothes. Milly cut the clothes up into pieces while Mother stitched them. "I want to make extras for my friends!" exclaimed Milly. "We'd better work quickly then," Mother smiled.
