HENRY PARK PRIMARY SCHOOL
2023 END OF YEAR EXAMINATION
MATHEMATICS
PRIMARY 5

PAPER 1
(BOOKLET A)

Name: _____ ( ) Parent's Signature

Class: Primary 5_____ / 5M_____ _____

Marks:

Paper 1	Booklet A	20
	Booklet B	25
Paper 2		55
Total		100

Total Time for Booklets A and B: 1 hour

Do not turn over this page until you are told to do so.
Follow all instructions carefully.
Answer all questions.
Shade your answers in the Optical Answer Sheet (OAS) provided.
You are **not** allowed to use a calculator.

Downloaded from SingaKids.com

Questions **1** to **10** carry 1 mark each. Questions **11** to **20** carry 2 marks each.
For each question, four options are given. One of them is the correct answer.
Make your choice (1, 2, 3 or 4) and shade your answer in the Optical Answer Sheet.

(30 marks)

---

1. 80 000 + 5000 + 700 + 2 = _____

(1) 85 720

(2) 85 702

(3) 85 072

(4) 80 572

2. Find the value of 50 – (5 + 21) ÷ 2 × 3

(1) 11

(2) 36

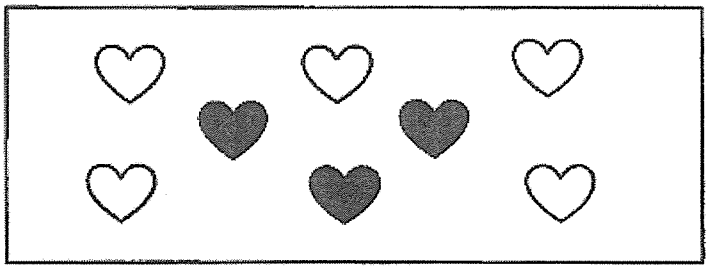

(3) 49

(4) 99

(Go on to the next page)

Downloaded from SingaKids.com

3. What fraction of the hearts in the box are shaded?

(1) $\frac{3}{8}$

(2) $\frac{5}{8}$

(3) $\frac{1}{2}$

(4) $\frac{3}{5}$

4. Which decimal is greater than 0.08 but smaller than 0.15?

(1) 0.1

(2) 0.9

(3) 0.01

(4) 0.23

5. Keith had 400 marbles. 120 of his marbles were green.
What percentage of Keith's marbles were green?

(1) 70%

(2) 60%

(3) 40%

(4) 30%

(Go on to the next page)

Downloaded from SingaKids.com

6. There are 70 buttons in a box. 24 of the buttons are red while the rest are blue. Express the number of red buttons to the number of blue buttons as a ratio in the simplest form.

(1) 12 : 23

(2) 12 : 35

(3) 23 : 12

(4) 23 : 35

7. Johan folds 5 paper cranes in 8 minutes.
At this rate, how many paper cranes can Johan fold in 40 minutes?

(1) 25

(2) 64

(3) 200

(4) 320

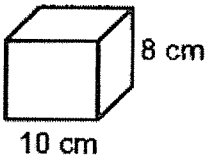

8. A solid cuboid of height 8 cm has a square base of side 10 cm.
What is its volume?

(1) 28 cm^3

(2) 80 cm^3

(3) 640 cm^3

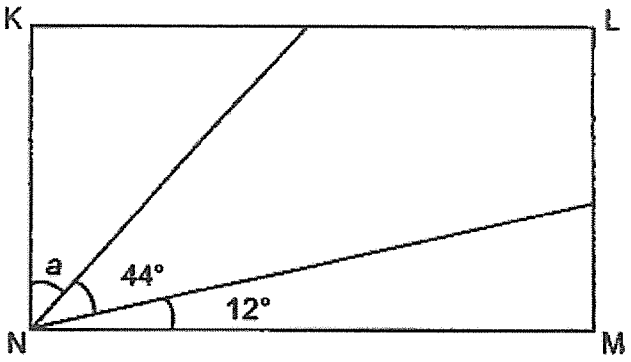

(4) 800 cm^3

(Go on to the next page)

Downloaded from SingaKids.com

9. In the figure, KLMN is a rectangle. Find $\angle a$.

(1) 34°

(2) 45°

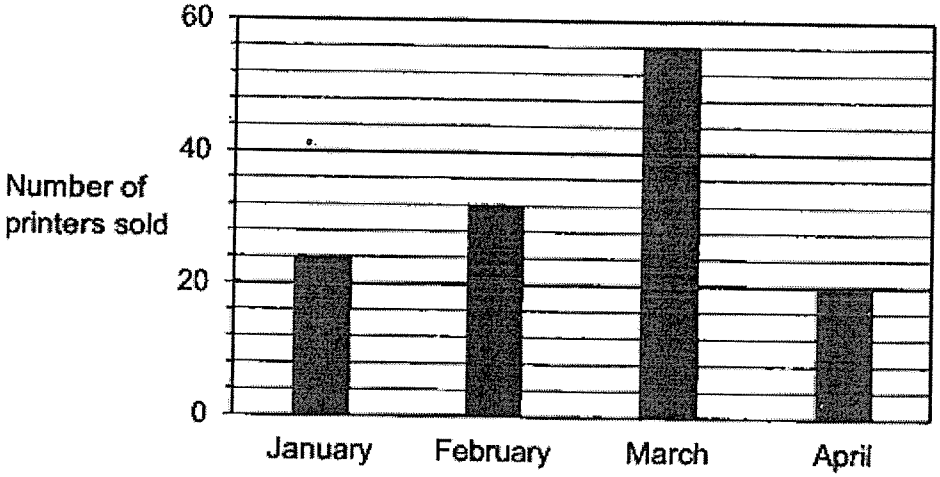

(3) 46°

(4) 56°

(Go on to the next page)

Downloaded from SingaKids.com

10. The graph below shows the number of printers sold by a shop from January to April.

How many printers did the shop sell in February?

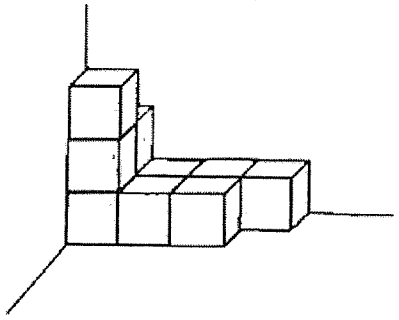

(1) 23

(2) 26

(3) 30

(4) 32

11. The solid below is made up of some identical 1-cm cubes.

What is the volume of the solid?

(1) 9 cm^3

(2) 10 cm^3

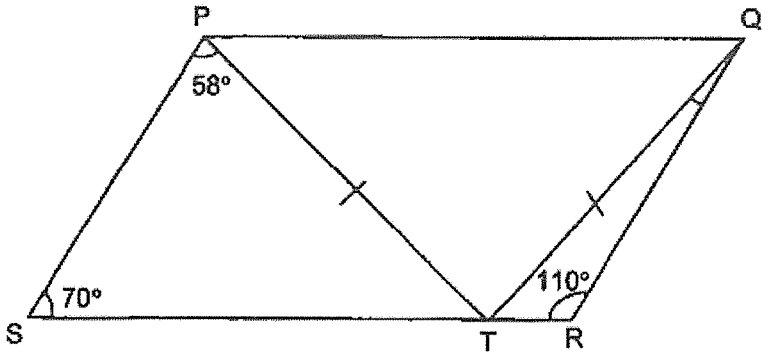

(3) 17 cm^3

(4) 18 cm^3

(Go on to the next page)

Downloaded from SingaKids.com

12. PQRS is parallelogram and PQT is an isosceles triangle. Find ∠TQR.

(1) 6°

(2) 8°

(3) 12°

(4) 18°

13. The ratio of the length of a rectangle to its breadth is 6 : 5. The perimeter of the rectangle is 88 cm. What is the area of the rectangle?

(1) 120 cm^2

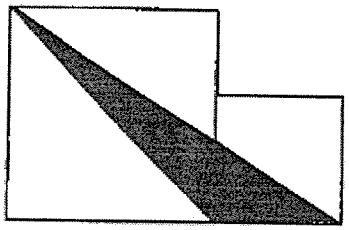

(2) 240 cm^2

(3) 480 cm^2

(4) 4320 cm^2

Downloaded from SingaKids.com

14. The figure below is made up of 2 squares of sides 5 cm and 3 cm.
Find the shaded area.

(1) 7.5 cm^2

(2) 12.5 cm^2

(3) 15 cm^2

(4) 20 cm^2

15. A table with 4 columns is filled with odd numbers in a certain pattern.
The first 4 rows of the table are shown below.

	Column A	Column B	Column C	Column D
Row 1	1	3	5	7
Row 2	9	11	13	15
Row 3	17	19	21	23
Row 4	25	27	29	31
⋮	⋮	⋮	⋮	⋮

In which column will the number 159 appear?

(1) Column A

(2) Column B

(3) Column C

(4) Column D

MATHEMATICS
PRIMARY 5

PAPER 1
(BOOKLET B)

Name: _____( )

Class: Primary 5_____/ 5M_____

25

Total Time for Booklets A and B: 1 hour

Do not turn over this page until you are told to do so.

Follow all instructions carefully.

Answer all questions.

Write your answers in this booklet.

You are not allowed to use a calculator.

Downloaded from SingaKids.com

Questions **16** to **20** carry 1 mark each. Write your answers in the spaces provided. For questions which require units, give your answers in the units stated.

(5 marks)

16. Find the greatest multiple of 8 that is less than 50.

Ans: _____

17. Find the value of $\frac{1}{3} \times \frac{5}{7}$.

Ans: _____

18. Find the value of 7.2 ÷ 3

Ans: _____

Downloaded from SingaKids.com

19. What is the missing number in the box?

63 : ? = 7 : 2

Do not write in this space

Ans: _____

20. Printer A prints 20 posters in 1 minute. Printer B prints 30 posters in 1 minute. Given that printers A and B start printing at the same time, how long does it take for both printers to finish printing 4000 posters altogether?

Ans: _____ min

Go on to the next page

Downloaded from SingaKids.com

Questions **21** to **30** carry 2 marks each. Show your working clearly and write your answers in the spaces provided. For questions which require units, give your answers in the units stated.

(20 marks)

21. Gwen baked some cupcakes. After Amy took $\frac{1}{7}$ of the cupcakes and May took $\frac{2}{3}$ of the cupcakes, there were 24 cupcakes left. How many cupcakes did Gwen bake?

Ans: _____

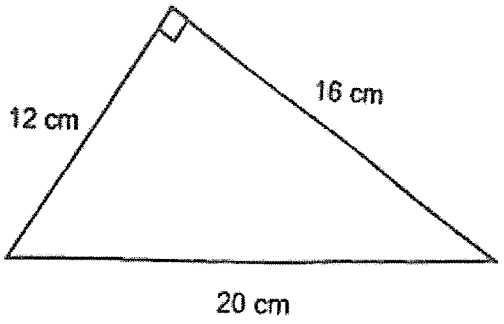

22. Mr Lim had a total of 880 chairs in his shop. He sold 45% of the chairs. How many chairs did Mr Lim sell?

Ans: _____

Downloaded from SingaKids.com

Do not write in this space

23. The figure shows a right-angled triangle. Find the area of the triangle.

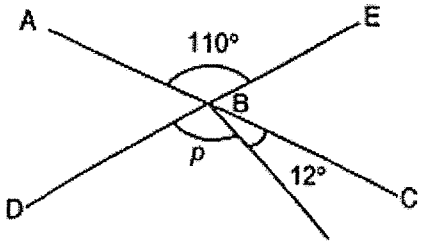

Ans: _____ cm^2

24. A group of 4 boys had an average of 32 stickers. When Edward joined the group, the 5 boys had an average of 42 stickers. How many stickers did Edward have?

Ans: _____

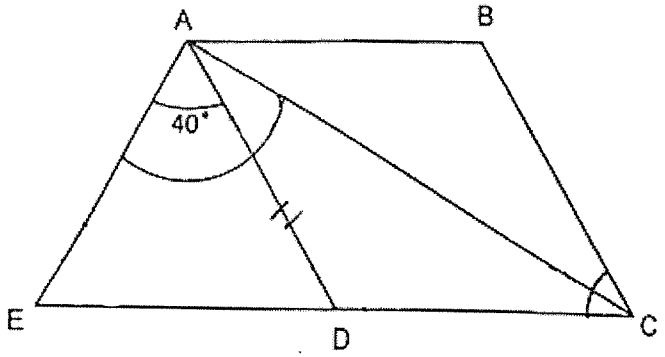

Downloaded from SingaKids.com

25. In the diagram below, ABC and DBE are straight lines. Find $\angle p$.

Ans: _____ °

26. In the figure below, ABCD is a rhombus and ADE is an isosceles triangle. EDC is a straight line and AE = AD. Find $\angle CAE$.

Ans: _____ °

Downloaded from SingaKids.com

27. The average test score of a group of students was 80. When Miss Lim recorded the test score of these students, she wrongly recorded one student's test score as 20 when it should have been 90.
As a result, Miss Lim calculated the average test score as 78.
How many students were there in the group?

Do not write in this space

Ans: _____

28. Kelly and Louis had the same number of cookies at first. Each day, Kelly ate 4 cookies while Louis ate 6 cookies. When Louis had 12cookies left. Kelly still had 3 times as many cookies as him. How many cookies did Kelly have at first?

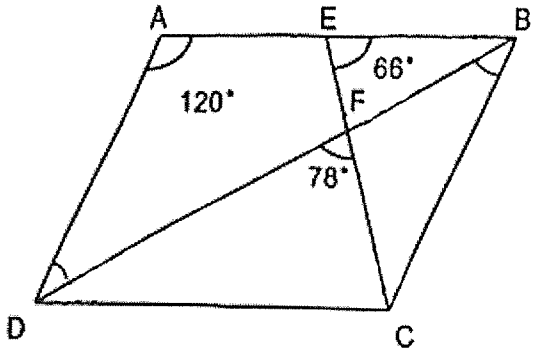

Ans: _____

Go on to the next page

Downloaded from SingaKids.com

29. ABCD is a parallelogram. EFC is a straight line.

$\angle DAB = 120^\circ$, $\angle BEC = 66^\circ$ and $\angle DFC = 78^\circ$, find $\angle CBD$.

Ans: _____ °

Go on to the next page

Downloaded from SingaKids.com

30. Figure 1 shows a square piece of paper, WXYZ. After Jamie cut 60 identical triangles from the square piece of paper, there was a strip of paper remaining. Figure 2 shows the measurement of one such triangle Jamie cut. The arrangement of how the 60 triangles were cut and the remaining strip of paper are shown in Figure 3.
Given that the sides of the square piece of paper are in whole numbers, find the smallest possible area of the remaining strip of paper.

Do not write in this space

11. Michael has 5 times as much money as Ravi. They have $4560 altogether.

(a) After each of them bought a standing fan of the same price, Michael had 6 times as much money left as Ravi. How much was the standing fan?

Ans: (a)_____ [3]

(b) After buying the standing fan, Michael gave Ravi some money. Michael and Ravi then had an equal amount of money. How much money did Michael give to Ravi?

Ans: (b) _____ [2]

Please do not write in the margin.

Please do not write in the margin.

Please do not write in the margin.

Downloaded from SingaKids.com

12. Ali earns a fixed monthly salary. In June, he spent $\frac{1}{3}$ of his salary on a table and $\frac{5}{6}$ of his remaining salary on a television.

(a) What fraction of Ali's salary was spend on the television?

Ans: (a)_____ [1]

(b) After buying the table and television, Ali had $360 left. Then, he spent $336 to buy a total of 20 plates and bowls. Each bowl cost $27 while each plate cost $10. What fraction of Ali's salary was spent on the plates?

Ans: (b) _____ [4]

Please do not write in the margin.

Please do not write in the margin.

Please do not write in the margin.
