2023

PRELIMINARY EXAMINATION
PRIMARY 6

MATHEMATICS
PAPER 1
(Booklet A)

DURATION (Booklets A and B) : 1 h

DATE : 21 AUGUST 2023

INSTRUCTIONS

1. Do not turn over this page until you are told to do so.
2. Follow all instructions carefully.
3. Answer all questions.
4. Use a 2B pencil to shade your answers in the Optical Answer Sheet (OAS).
5. The use of calculators is **NOT** allowed.

Name: _____( )

Class: Primary 6 _____

Parent's Signature : _____

Date : _____

Marks:

Paper 1 (Booklet A)	/20

Downloaded from SingaKids.com

- BLANK PAGE -

Downloaded from SingaKids.com

Paper 1
Booklet A

Questions 1 to 10 carry 1 mark each. Questions 11 to 15 carry 2 marks each.
For each question, four options are given. One of them is the correct answer.
Make your choice (1, 2, 3 or 4). Shade the oval (1, 2, 3 or 4) on the Optical Answer Sheet. (20 marks)

---

1 5 809 621 = 5 000 000 + _____ + 9000 + 600 + 20 + 1

What is the missing number in the blank?

(1) 800
(2) 8000
(3) 80 000
(4) 800 000

2 Which of the following numbers are common factors of 16 and 24?

(1) 8 and 12
(2) 2 and 3
(3) 4 and 6
(4) 4 and 8

3 Express 0.6 as a percentage.

(1) 0.006%
(2) 0.06%
(3) 6%
(4) 60%

Downloaded from SingaKids.com

4 Carol is 15 years old. She is z years older than Abbie. How old is Abbie?

(1) $(15 + z)$ years old

(2) $(15 - z)$ years old

(3) $(z - 15)$ years old

(4) $(15z)$ years old

5 Which of the following fractions has the largest value?

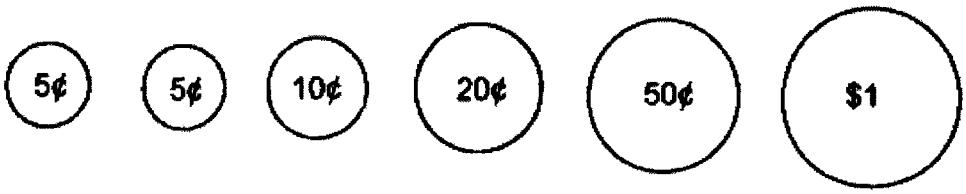

(1) $\frac{7}{9}$

(2) $\frac{5}{11}$

(3) $\frac{4}{7}$

(4) $\frac{1}{2}$

6 Ravi had 6 coins in his wallet as shown. He took out only 4 coins to pay the exact amount for a bun.
Which of the following amounts is **not** a possible cost of the bun?

(1) $1.65

(2) $1.40

(3) $1.35

(4) $1.30

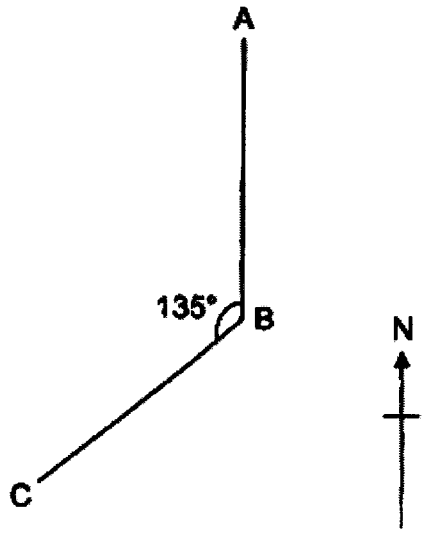

Downloaded from SingaKids.com

7 The average of 6 numbers is 14. When a 7th number is added, the average becomes 16. What is the 7th number?

(1) 30
(2) 28
(3) 14
(4) 12

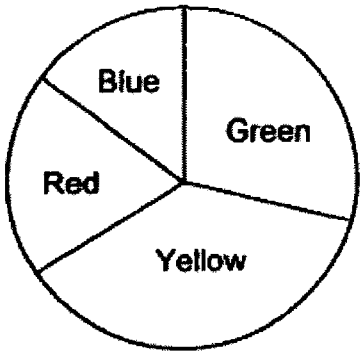

8 In the diagram, point A is north of point B and ∠ABC = 135°.
In what direction is point C from point B?

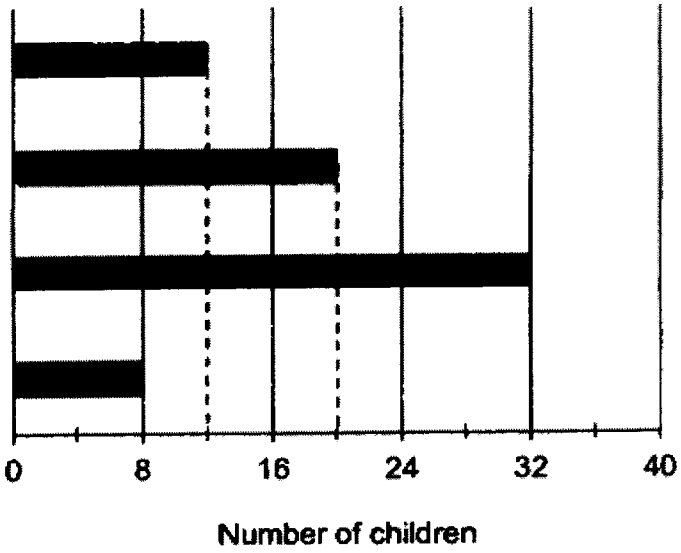

(1) North-East
(2) North-West
(3) South-East
(4) South-West

Downloaded from SingaKids.com

9 The pie chart shows what a group of children has chosen as their favourite colour. The same information is shown in a bar graph, but the names of the colours are not shown on the bar graph.

How many children chose yellow and red as their favourite colour?

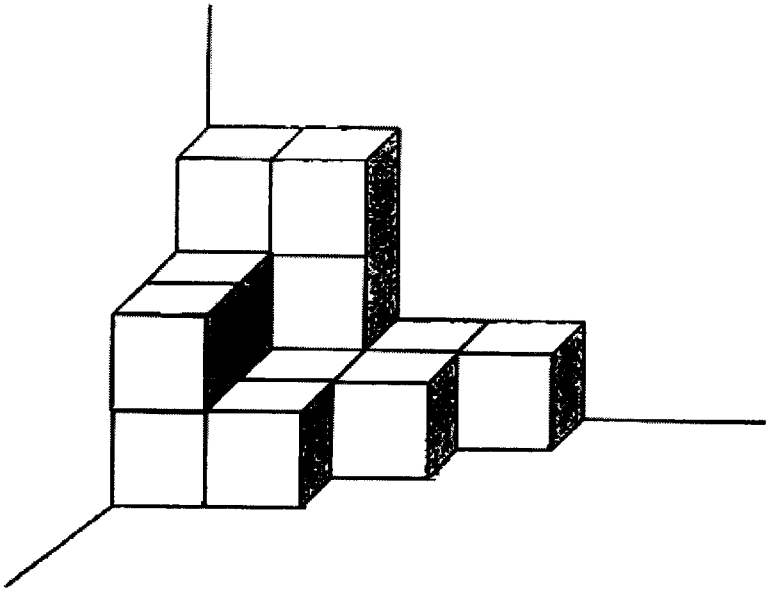

(1) 20
(2) 40
(3) 44
(4) 46

10 There were 84 adults. 51 of them were men.
What was the ratio of the number of women to the number of men?

(1) 11 : 17
(2) 17 : 28
(3) 17 : 11
(4) 28 : 17

Downloaded from SingaKids.com

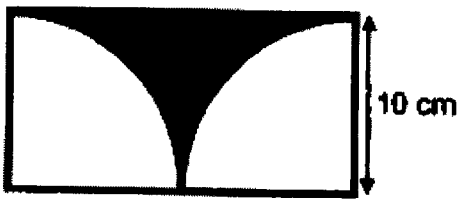

11 The solid below is made up of 1-cm cubes.
How many more 1-cm cubes are needed to build a cube of edge 4 cm?

(1) 28
(2) 36
(3) 49
(4) 53

12 The figure is made up of 2 identical quarter circles in a rectangle.
Find the perimeter of the shaded part. (Take π = 3.14)

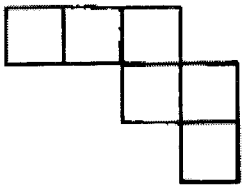

(1) 31.4 cm
(2) 35.7 cm
(3) 51.4 cm
(4) 78.5 cm

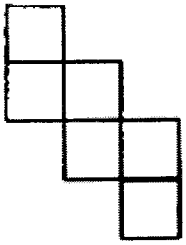

Downloaded from SingaKids.com

13 Which of the following is **not** a net of a cube?

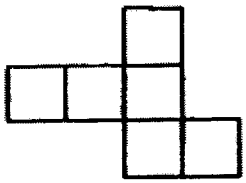

(1)

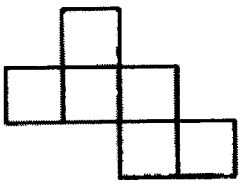

(2)

(3)

(4)

14 Meifang spent 20% of her money on a shirt. She used the rest of the money to buy a bag and a necklace. The bag cost $24 more than the shirt. The necklace cost $72. Find the cost of the bag.

(1) $56

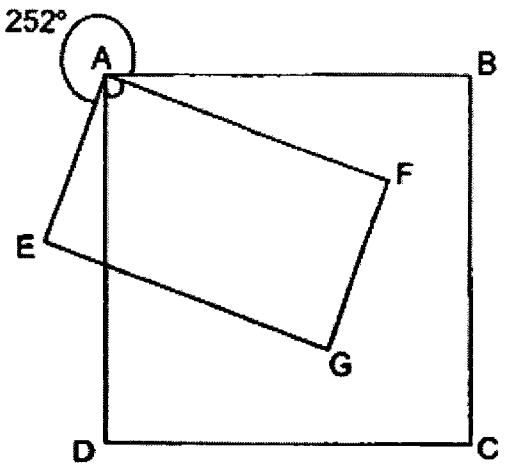

(2) $48

(3) $40

(4) $32

Downloaded from SingaKids.com

15 In the figure, ABCD is a square, EAFG is a rectangle and ∠EAB = 252°. Find ∠DAF.

(1) 108°

(2) 72°

(3) 45°

(4) 18°

MATHEMATICS
PAPER 1
(Booklet B)

DURATION (Booklets A and B) : 1 h

DATE : 21 AUGUST 2023

INSTRUCTIONS

1. Do not turn over this page until you are told to do so.
2. Follow all instructions carefully.
3. Answer all questions.
4. Use a dark blue or black ballpoint pen to write your answer in the space provided for each question.
5. Do not use correction fluid/tape or highlighters.
6. The use of calculators is **NOT** allowed.

Downloaded from SingaKids.com

Paper 1
Booklet B

Questions 16 to 20 carry 1 mark each. Write your answers in the spaces provided. For questions which require units, give your answers in the units stated.

(5 marks)

Do not write in this space

16 In the number line, what is the value represented by A?

Ans: _____

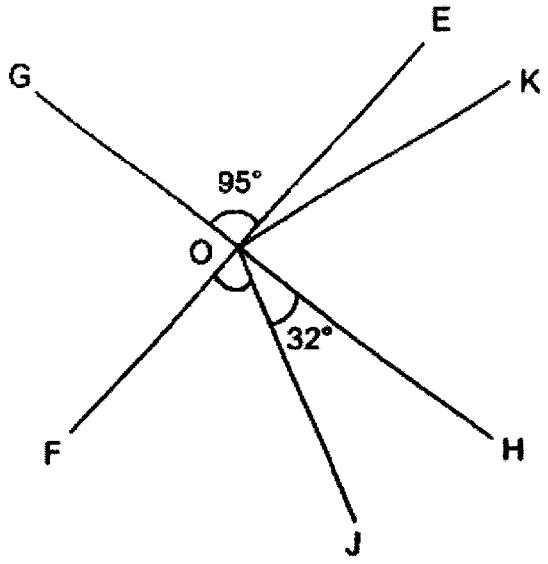

17 7 men donated a total of $1435.
What is the average amount donated by each man?

Ans: $_____

Downloaded from SingaKids.com

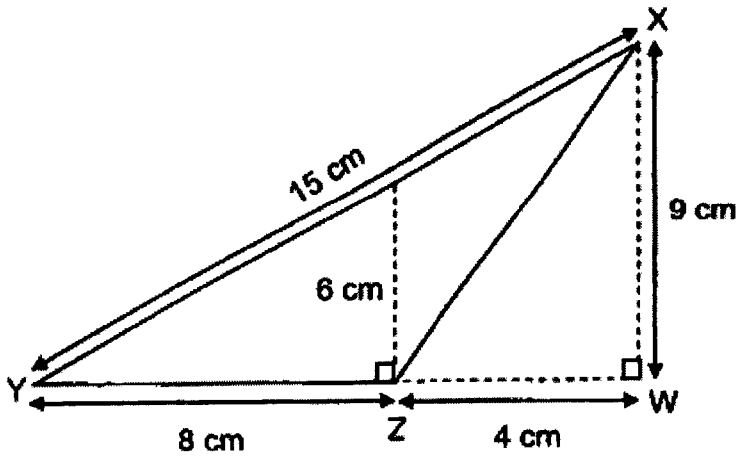

Do not write in this space

18 GH and EF are straight lines. ∠GOE = 95° and ∠JOH = 32°. Find ∠FOJ.

Ans: _____ °

19 In the figure below, find the area of Triangle XYZ.

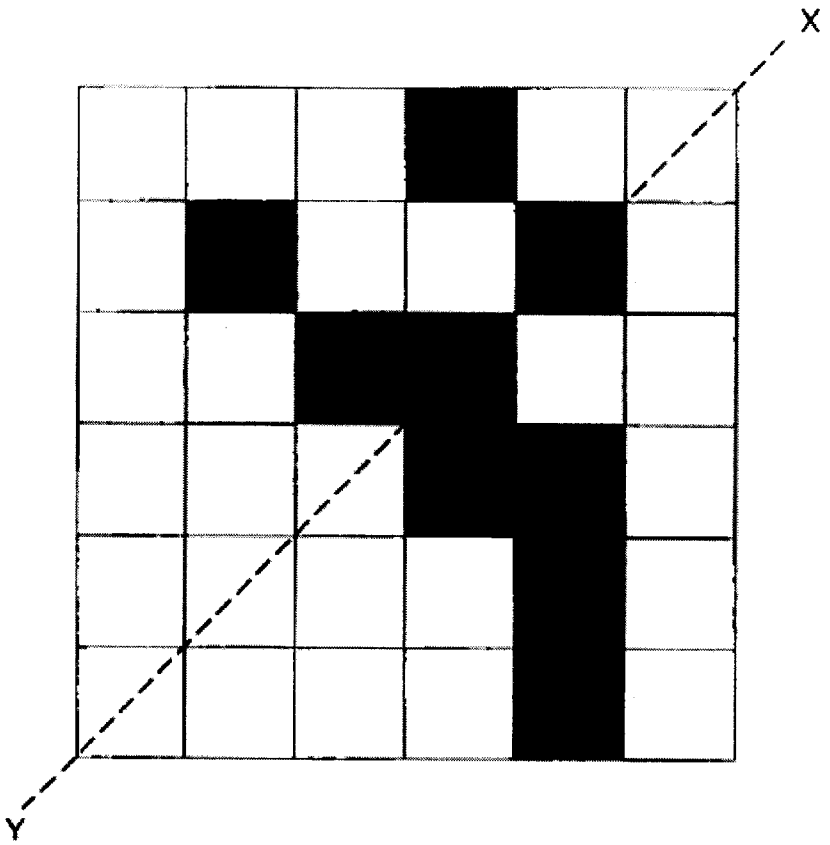

Ans: _____ cm^2

Downloaded from SingaKids.com

Do not write in this space

20 The figure below is made up of identical squares. Shade three more squares to form a symmetric figure with XY as the line of symmetry.

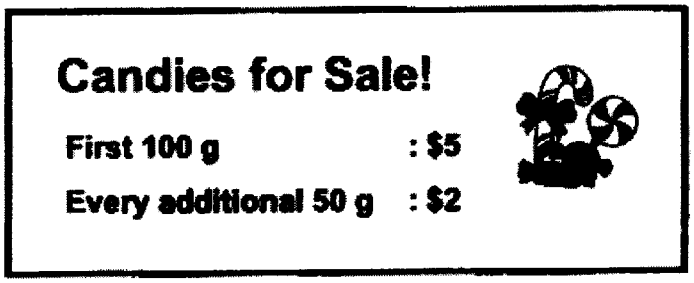

Downloaded from SingaKids.com

Questions 21 to 30 carry 2 marks each. Show your working clearly and write your answers in the spaces provided. For questions which require units, give your answers in the units stated. **(20 marks)**

Do not write in this space

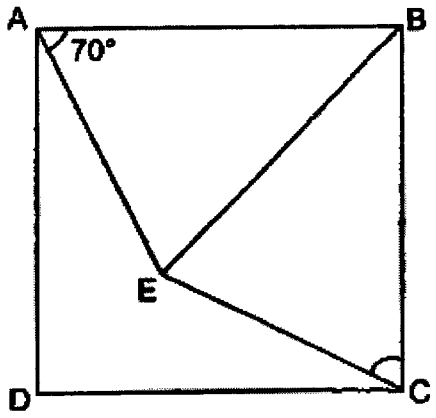

21 Candies were sold by mass as shown.

Rashid bought a packet of candies which weighed 250 g.
How much did he pay?

Ans: $ _____

22 In the figure, ABCD is a square. AB = EB and ∠BAE = 70°. Find ∠BCE.

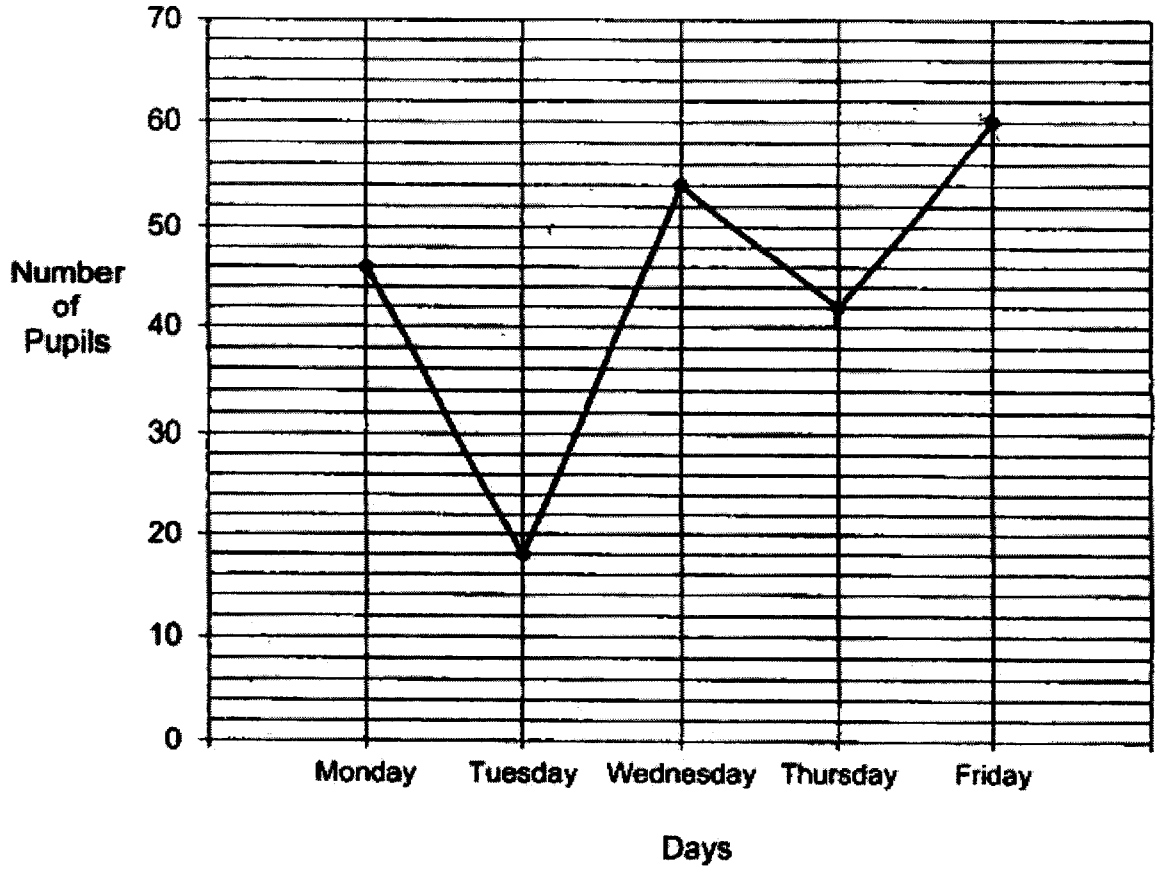

Ans: _____ °

Downloaded from SingaKids.com

Do not write in this space

23 A group of pupils volunteered at an old folks' home for 5 days. The line graph shows their attendance at the old folks' home from Monday to Friday. All pupils turned up on Friday.

On which day were 30% of the pupils absent from the old folks' home?

Ans: _____

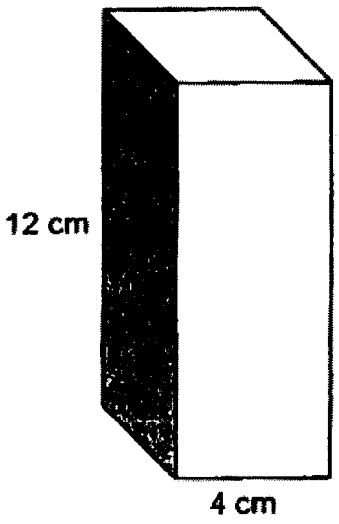

Downloaded from SingaKids.com

Do not write in this space

24 Find the value of $5 + 4a + 18 - 2a$ when $a = 8$.

Ans: _____

25 A cuboid of height 12 cm has a square base of side 4 cm.
What is its volume?

Ans: _____ cm^3

Downloaded from SingaKids.com

Do not write in this space

26 Lydia bought $3n$ packets of stickers. Each packet contained 8 stickers. She gave 25 stickers to her friends and divided the rest of the stickers equally into 7 boxes. How many stickers were there in each box? Give your answer in terms of n in the simplest form.

Ans: _____

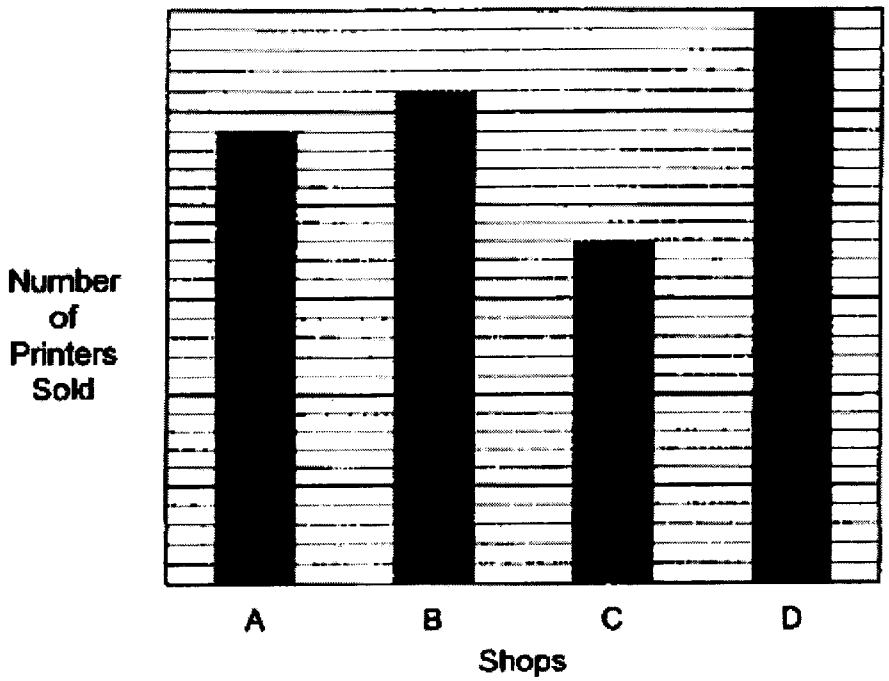

27 At first, the ratio of Weijie's savings to Lihua's savings was 5 : 4. After each of them spent $40, the ratio of Weijie's savings to Lihua's savings became 13 : 10. What was Lihua's savings at first?

Ans: $ _____

Downloaded from SingaKids.com

Do not write in this space

28 The bar graph below shows the number of printers sold by 4 shops in a month.

What fraction of the total number of printers was sold by Shop B? Give your answer in its simplest form.

Ans: _____

Downloaded from SingaKids.com

Do not write in this space

29 A total of 115 people stand in a queue for concert tickets. There are at least 3 men between any 2 women. What is the largest possible number of women in the queue?

Ans: _____

30 Hasnah had 5 boxes of identical erasers. At first, each of the boxes contained the same number of erasers. She took 21 erasers from each box. After that, the total number of erasers left in the 5 boxes was equal to the total number of erasers in 2 of the boxes at first.
What was the number of erasers in each box at first?

Ans: _____

Questions 1 to 5 carry 2 marks each. Show your working clearly and write your answers in the spaces provided. For questions which require units, give your answers in the units stated. (10 marks)

Do not write in this space

1 Use all the digits 9, 2, 0, 3 to form

(a) the greatest possible odd number

(b) the number closest to 3000

Ans: (a) _____ [1]

(b) _____ [1]

2 A roll of ribbon is cut into three pieces in the ratio of 7 : 2 : 3. The shortest piece is 42 cm. What is the length of the longest piece of ribbon?

Ans: _____ cm

Downloaded from SingaKids.com

Do not write in this space

3 Figure 1 shows a right-angled triangle. Figure 2 is made up of 4 such identical triangles shown in Figure 1 and a square in the middle. Find the sum of ∠a, ∠b and ∠c.

Figure 1

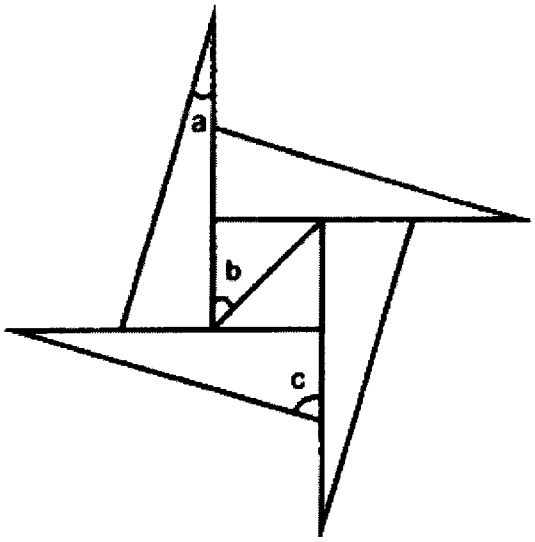

Figure 2

Ans: _____ °

4 The table below shows the grades of 120 students who joined a Mathematics competition. Grade A is the best grade and Grade E is the worst grade.

Grade	A	B	C	D	E
Number of students	15	27	54	18	6

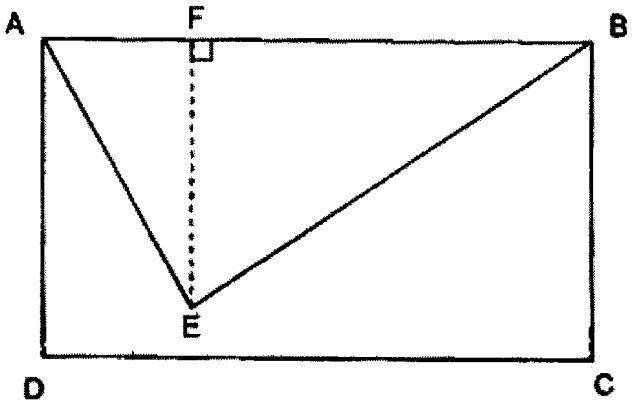

Only $\frac{7}{20}$ of the students made it through to the second round.
What was the minimum grade required to go through to the second round?

Ans: _____

Downloaded from SingaKids.com

Do not write in this space

14 A rectangular piece of paper RSVX is folded at two of its corners as shown.
VT = VU and ∠RXW = 18°.

Before folding *After folding*

(a) Find ∠VUT.

Ans: (a) _____ [1]

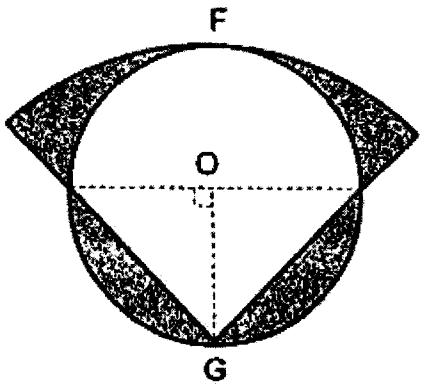

(b) Find ∠XWU.

Ans: (b) _____ [3]

Downloaded from SingaKids.com

Do not write in this space

15 The figure below is made up of a quadrant and a circle overlapping each other. The quadrant touches the circle at points F and G.
The circle, with centre O, has a diameter of 24 cm. Find the area of the shaded part .
($\pi = 3.14$)

Ans: _____ [5]

Downloaded from SingaKids.com

Do not write in this space

16 Ms Wong received $6120 from selling some bags and some dresses. She received $3240 more for the bags than the dresses. 4 times as many bags as dresses were sold. Each dress cost $15 more than each bag.

(a) How much did Ms Wong receive for the bags?

Ans: (a) _____ [2]

(b) How many dresses did Ms Wong sell?

Ans: (b) _____ [3]

Downloaded from SingaKids.com

Do not write in this space

17 Ali, Brandon, Carrie and Devi shared a sum of money equally at first.
Ali gave $\frac{2}{3}$ of his money to Brandon.

(a) What fraction of the sum of money did Ali have in the end?

Ans: (a) _____ [1]

(b) Brandon then gave $\frac{1}{5}$ of his money to Carrie.
Carrie then gave $\frac{3}{8}$ of her money and an additional $55 to Devi.
Devi had $595 in the end. How much was the sum of money they shared?

Ans: (b) _____ [4]
