Section A: Comprehension 1 (7 marks)

Read the passage carefully and answer the questions that follow.

One sunny afternoon, Lily was walking home from school when she found a glittery, red marble lying on the sidewalk. It was just like something from her favourite toy collection. As she picked it up, she thought about how lucky she was to find it. Just then, a thought crossed her mind, "The person who has lost it must be very sad."

Lily decided to take the marble to the lost-and-found corner at school. She told her teacher, Mrs Lim, about it. Mrs Lim smiled and said, "You're showing great care, Lily." She was proud of Lily's remarkable deed.

The next day, a boy named Max came to the lost-and-found corner and asked about a red marble. It was his! He had been looking for it and was so happy to get it back. He also discovered that it was Lily who had found it.

"Thank you, Lily! You're awesome!" he said. Lily felt a warm feeling in her heart. She realised that doing something kind for someone made her very happy. She also learned that sharing joy with others can bring happiness as well.

1.For question 1, tick (✓) your chosen answer.

In paragraph 1, what does the word **"glittery"** mean in the story?

The word means_____. **(1m)**

	small and rough
	bright and shiny
	old and scratched

Downloaded from SingaKids.com

Section B: Comprehension 2 (8 marks)

Long ago, there lived a cunning fox and his good-natured friend, Alligator. Food was often scarce and they never had enough to eat. One day, they decided to grow their own. First, they planted some corn. Alligator asked, "How shall we share the corn?"

"You have all the parts that grow under the ground and I will take the parts that are growing above the ground," said Fox.

When they pulled out the plants, Alligator saw that only roots grew under the ground. The corn grew above the ground. Immediately, he realised he was tricked. Then, the cunning fox laughed and happily ate the corn.

Next, they decided to grow potatoes. When it was time to harvest the crop, Alligator said, "This time, I'll take the parts that grow above the ground." Fox agreed readily. When they dug up the plants, Alligator was upset to see all the potatoes growing beneath the ground. Fox laughed out loud and ate all the potatoes.

Then, Fox decided that they should grow sugarcane. He was just about to promise Alligator both the roots and leaves when Alligator came up with a good way to share the harvest fairly. Alligator suggested they split it equally. Feeling sorry, Fox agreed with Alligator.

From then on, Fox and Alligator always had plenty of food to eat and they lived happily ever after.
