Section F: Comprehension Open-Ended (8 marks)

Read the passage carefully and annotate it. Your answers must be based on the passage read.

Every night, when the moon lit up the sky, Felix the cat gazed upward and admired the night sky.

"Oh, how I wish I could journey to space! If only I were a space cat!" Felix exclaimed.

Determined to reach the stars, Felix tried everything. He climbed the tallest fence and even scrambled up a sturdy tree, but nothing brought him closer! Then, an exciting idea popped into his mind.

"I want to build my very own spaceship!" he declared.

Felix searched high and low for materials. He found a discarded washing machine and decided it would be his spaceship. He taped two empty fuel cans to the sides. Bursting with excitement, he climbed inside and closed the door.

"Whoosh!" The spaceship launched into the sky! Felix felt exhilarated as he soared higher and higher. Suddenly, disaster struck! The spaceship began to shake. One of the fuel cans had come loose!

Before Felix could do anything, the spaceship jerked and lurched forward. Felix desperately tried to control the spaceship but was unsuccessful. His heart raced.

"Could the problem be caused by the fuel cans?" he wondered as perspiration dotted his forehead. He decided to take the chance. Without hesitation, he stretched out his paw and gave the fuel can a push. Fortunately, the can clicked into position and the spaceship steadied. Felix breathed a sigh of relief.

Moments later, he peered out the window and gasped in awe--his dream had finally come true.
