Kate was thrilled to go on a trip to the forest with her teacher and classmates. She put on her best walking shoes and brought along some snacks. She also sprayed mosquito repellent on herself. She was fully prepared.

Kate listened carefully to her teacher, Mr Tan, who was telling them more about the animals in the forest. A while later, Kate and her classmates spotted some wild monkeys Mr Tan quickly advised them not to feed the monkeys as they could get hurt.

After walking for some time, Mr Tan told the class to stop to rest. While enjoying her snacks, Kate noticed a monkey nearby and offered it some food. The greedy animal then jumped onto Kate to snatch her entire bag of food. She shouted for help and was in tears. Her classmates stared in shock, not knowing what to do. Mr Tan dashed towards Kate to help her. He looked around, picked up a fallen branch and used it to scare the monkey away.

Section G: Comprehension 2 (10 marks)

Read the passage carefully and answer the questions that follow.

Johan and his younger brother, Rahim, could not spend the evening revising their schoolwork with their mother. They had to go out to fish. Their father, who was a fisherman, was feeling unwell. The brothers had to catch some fish so that their father could sell them in the market the next morning.

That evening, Rahim decided to leave for the sea early. He knew that if he and Johan were to set off late, they might not be able to find a good spot at sea to catch plenty of fish. Rahim urged Johan to hurry and instructed him to load the fishing net onto their boat quickly.

While out at sea, Rahim helped to control the boat while Johan cast the net into the waters. Although it was hard work, they were glad to be able to help their father. While waiting to pull the net in, the brothers took out their books from their bags to revise. It was not easy as they could not see clearly under the dim light from the oil lamp. Suddenly, their boat rocked hard from left to right. Rahim gasped and held his brother's arm tightly. Although he was scared, Johan remained calm. He went to the edge of their boat to take a look. He saw the net shaking.

Excited about the catch, Johan decided to pull in the net. To his dismay, there were no fishes. Upon taking a closer look, Johan found out that the net had a huge hole in it.

"A big fish must have damaged the net while trying to escape," Johan sighed.

The brothers were disappointed that they had to return home empty-handed. However, their parents were proud that they had persevered and put in their best effort that night.
